Sony Recommends Windows Vista™ Business

The thin-and-light VAIO® FZ notebook is ideal for professionals who spend their time both in and out of the office. With its slight and sturdy casing, robust Intel® Core™ 2 Duo processor and advanced wireless technology, this notebook has the performance and mobility features you need to stay productive.

Designed with mobility in mind

The thin-and-light VAIO® FZ notebook packs big power into a small, portable and durable magnesium alloy chassis. This unique 5.75 pound¹ PC combines all the benefits of a 15.4" XBRITE-ECO™ widescreen display² with the dimensions or "footprint" of a much smaller notebook. The VAIO FZ is designed to maximize LCD space with advanced space-saving engineering techniques implemented throughout the chassis, including a reconfigured battery and motherboard design. The result is a brilliant 15.4" widescreen display² in the body of a portable, thin-and-light notebook.

Intel®™s best technology for notebooks

Get the ultimate mobile experience with unparalleled processing speeds, longer battery life and enhanced wireless connectivity⁴. The VAIO® FZ notebook features Intel® Centrino® Duo processor technology, Intel®™s latest and best notebook technology to date. Powered by an Intel® Core™ 2 Duo processor and an 800 MHz Front Side Bus, this fourth generation state-of-the-art technology provides screaming-fast performance and the connectivity, power and flexibility you need for high-speed⁵ wireless computing on the go⁴.

Next-generation 802.11n wireless technology

Introducing the next great advancement in wireless technology - 802.11n.

With built-in 802.11n wireless LAN technology⁴, the VAIO® FZ notebook lets

Centrino Pro... out during... in...
